Tax Table

CAUTION

See the instructions for line 16 to see if you must use the Tax Table below to figure your tax.

Example. A married couple is filing a joint return. Their taxable income on Form 1040, line 15, is $25,300. First, they find the $25,300-25,350 taxable income line. Next, they find the column for married filing jointly and read down the column. The amount shown where the taxable income line and filing status column meet is $2,575. This is the tax amount they should enter in the entry space on Form 1040, line 16.

2024 Earned Income Credit (EIC) Table
Caution. This is **not** a tax table.

1. To find your credit, read down the “At least - But less than” columns and find the line that includes the amount you were told to look up from your EIC Worksheet.

2. Then, go to the column that includes your filing status and the number of qualifying children you have who have valid SSNs as defined earlier. Enter the credit from that column on your EIC Worksheet.

Example. If your filing status is single, you have one qualifying child who has a valid SSN, and the amount you are looking up from your EIC Worksheet is $2,455, you would enter $842.

If the amount you are looking up from the worksheet is–		And your filing status is–
